

Tradition meets creativity: The Fancy Village at the Christmas Village / Campus of the University of Vienna

25 years anniversary on campus: 2 villages – one place. An adventure for the whole family

With its traditional offerings, the popular Christmas village on the university campus has been offering an atmospheric and traditional Christmas like in grandmother's times for 25 years. Under the motto "(Experience) Austria", craftsmen and businesses from all over Austria transform the Christmas village into an impressive world of enjoyment, pampering and adventure in which traditional Austrian Christmas can be experienced and enjoyed in all its facets.

A wide range of rides and the opportunity to ride a pony will also make children's hearts beat faster, while parents can taste their way through the nine federal states at the rustic Gastroalmen.

Creatively unique and unusual: The Fancy Village

As a new highlight of the market, the "Fancy Village" impresses as an international creative market with attractive design and creative products, as well as unusual gastronomic ideas.

A separate area at the Christmas village was created specifically for this purpose. The Hungarian art project "Sleigh Christmas Tree", a 12m high, walk-in Christmas tree consisting of 365 toboggans, welcomes visitors to the unusual part of the village as a striking attraction.

With its stylish light decoration, the hip, colorful huts, which are decorated with unique roof silhouettes, designed by the artist duo Mia Kim & Niko Heep from Vienna-Josefstadt, the Fancy Village is the new attraction for the young and hip audience.
